

OP-815_Test_Cases

Batch results not confined to the destined batch time date

Summary: When a specific time span is set in order to view a batch, the results should be confined to the mentioned batch date time. It should not bring results out of the mentioned date time. But, when batch time is set from 30th March 2016 00:39 to 15.39, it showed results for batches run prior to the 'From' time, ie., records from 29th March 23:39 thereby displaying an extra of 125+ records for the ideal result.

Pre-Conditions:

1) Login to OPEN UI:

URL: <http://52.29.88.204:8888/>

Username: to be asked to the admin

Password: to be asked to the admin

2) Login to Data Base (Staging):

host : open.cmxafq3tiet.eu-central-1.rds.amazonaws.com

port : 3306

user : to be asked to the admin

password : to be asked to the admin

schema : apipartners

Sno	Test Step Description	Expected Behaviour	Comments
TC_UI_01	Login to OPEN UI using the above mentioned credentials	One should be lead to the home page of the OPEN UI	yes
TC_UI_02	Set the batch time from 30th March 2016 00:39 to 15.39,	All the batches that ran in between the mentioned times should be displayed over n number of pages depending upon the number of results that appeared for the time set	yes
TC_UI_03	Check to each of the records if they are confined to the set time limits	All the records that are displayed should be in the batches that are run in between the mentioned date times and not a single record be seen out of the limit set	yes
TC_UI_04	repeat the process for different set of times in order to check the specificity of the records to the time	All the different sets of times should display batch records set to their limits	yes
