OP-876_Test_Cases

Change UI - titles to remove ui-router

Summary: The Title of the UI Pages follows the following pattern:

[page-name] - ui-router

This looks like it is from a template driven code.

I would like the page title to be:

Open Platform - login
Open Platform - audit
Open Platform - configuration

Pre-Conditions:

1) Login to OPEN UI: apipartners12-staging.lumesseopen.io/

Username: to be asked to the admin

Password: to be asked to the admin

Sno	Test Step Description	Expected behaviour	Comments
TC_UI_01	Type the above mentioned URL in the address bar	It should lead one to the login page	yes
TC_UI_02	Mention the credentials into their respective fields (user/admin credentials) and click on login	One should be logged in as user/admin where on home page a clean platform with no coloured bars displaying "some text" should be seen	yes
TC_UI_03	Hover the mouse over the title of the web page	It should display "Open platform - Home" and not "main.home-ui-router"	
TC_UI_04	Click on menu>>Event Viewer and hover over over the title of the wed page	It should display "Open platform - dataviewer.audit" and not "main.dataviwer.audit-ui-router"	
TC_UI_05	Click on menu>>Batch Viewer and hover over over the title of the wed page	It should display "Open platform - dataviewer.batch" and not "main.dataviwer.batch-ui-router"	
NOTE: Login with admin credentials to access the configurations from the menu; user doesn't have access to configurations			
TC_UI_06	Click on menu>>Configuration>>TalentLink>>Integration scheduling and hover over over the title of the wed page	It should display "Open platform - dataviewer.systemconfig" and not "main.systemconfig-ui-router"	
TC_UI_07	Click on menu>>Configuration>>TalentLink>>Miscellaneous and hover over over the title of the wed page	It should display "Open platform - dataviewer.systemconfig" and not "main.systemconfig-ui-router"	
TC_UI_08	Click on menu>>Configuration>>TalentLink>>Notification and hover over over the title of the wed page	It should display "Open platform - dataviewer.systemconfig" and not "main.systemconfig-ui-router"	
TC_UI_09	Click on menu>>Configuration>>TalentLink>>Webservice and hover over over the title of the wed page	It should display "Open platform - dataviewer.systemconfig" and not "main.systemconfig-ui-router"	
TC_UI_10	Click on menu>>Configuration>>TalentLink>>Datamart and hover over over the title of the wed page	It should display "Open platform - dataviewer.systemconfig" and not "main.systemconfig-ui-router"	
TC_UI_11	Click on menu>>Configuration>>Open>>Miscellaneous and hover over over the title of the wed page	It should display "Open platform - dataviewer.systemconfig" and not "main.systemconfig-ui-router"	
TC_UI_12	Click on menu>>Configuration>>Open>>Notification and hover over over the title of the wed page	It should display "Open platform - dataviewer.systemconfig" and not "main.systemconfig-ui-router"	
TC_UI_13	Click on menu>>Configuration>>Hollaroo and hover over over the title of the wed page	It should display "Open platform - dataviewer.systemconfig" and not "main.systemconfig-ui-router"	
TC_UI_14	Click on menu>>Configuration>>Workday>>Webservice and hover over over the title of the wed page	It should display "Open platform - dataviewer.systemconfig" and not "main.systemconfig-ui-router"	
TC_UI_15	Click on menu>>Configuration>>Workday>>Integration scheduling and hover over over the title of the wed page	It should display "Open platform - dataviewer.systemconfig" and not "main.systemconfig-ui-router"	
TC_UI_16	Click on menu>>Configuration>>Workday>>Miscellaneous and hover over over the title of the wed page	It should display "Open platform - dataviewer.systemconfig" and not "main.systemconfig-ui-router"	
TC_UI_17	Click on menu>>Configuration>>Workday>>Notification and hover over over the title of the wed page	It should display "Open platform - dataviewer.systemconfig" and not "main.systemconfig-ui-router"	

| TC_UI_18 | Click on Logout to logout and hover over the title of the page | One should be logged out displaying the login page and title to be "open platform-login" and not "login-ui-router" | |
