   URL: https://emea3.mrtedtalentlink.com/tlk/pages/restricted/hostpage.jsp

   Company Name : API Partners

   Login   : (to be requested to the admin)

   Password   : (to be requested to the admin)

2. Login to Workday:

   URL: https://impl.workday.com/lumesse_pt1/login.htmld

   User Name : (to be requested to the admin)

   Password   :   (to be requested to the admin)

3. A position should be readily available in TLK which came from WD via open integration

Sno	Test Step Description	Expected Behaviour	Comments
TC_TLK_01	Create a candidate in TLK against available position that has come from WD via open	The candidate should be created in TLK	yes
TC_TLK_02	Fill in all the required details of the candidate in order to make up the summary	The candidate creation form is supposed to be filled in with all the required details	yes
TC_TLK_03	Mention the details like Street 1 and street 2 so as to make up a clear format of the contact address	The address data should be appropriately mentioned	yes
TC_TLK_04	Update the application status of the candidate to 'Hired'	The candidate should have got hired in TLK and the application should have got placed in to the queue and be seen as a pre-hire in WD	yes
TC_WD_05	Complete the business process in WD and hire the employee	The pre-hire should now be seen as an employee	yes
TC_WD_06	Check the contact data of the employee in to the contact address section	The address data should have got replicated into WD as the way it is mapped	yes
