OP-841_Test_Cases

Data mart to be included into Entity's drop down in OPEN UI

Summary: Data mart bringing data for data-analytics is an integration that should be added into the drop down list of entities. The data mart integration's data is being brought against batches while running the batch data viewer with entity 'ALL' ; but when trying to find data specific to data mart alone, there is no usability option to key in one.

Pre-Conditions:

1) Login to OPEN UI:

URL: http://52.29.88.204:8888/

Username: to be asked to the admin

Password: to be asked to the admin

Sno	Test Step Description	Expected Behaviour	Comments
TC_UI_01	Type into the address bar the above mentioned URL	One should be led to the login page of OPEN UI	yes
TC_UI_02	Type the login credentials into the respective fields	One should be logged in to the OPEN UI	yes
TC_UI_03	Click on the batch viewer from the menu in OPEN UI	Batch data viewer shoul dbe displaying displaying the required filter to be keyed in	yes
TC_UI_04	Set the batch date time to the required time (choose a time where data mart integration ran)	The batch data viewer should display all the batches ran at the specified time	yes
TC_UI_05	Set the status and entity to all	All the integrations with all available status in between the specified times must be displayed	yes
NOTE: As batch date times are mentioned as per the data mart integration run times, data mart should be seen as one among the results obtained			
TC_UI_06	Click on the drop down under entity and click to choose data mart	Data mart should be set as the kind of entity that needs to obtain results for	yes
TC_UI_07	Let the batch date times and status remain the same; change the entity to data mart	The batches that ran specific to the data mart integration amongst the times mentioned should be displayed	yes
			yes
